

## English Version

1.use English annotation 2.commit relate to issue 3.name rule 4.The submitted content does not contain sensitive information. Once uploaded these sensitive information , you can remove the information by these command as follow

```
#For example , the file named "config.php" contains your password or other sensitive information .
rm -rf config.php
git reset --hard HEAD^ // if you want to come back older version , replace HEAD^ with the version number (HEAD^ means the last version number , HEAD^^ means the last two version number).
git add .
git commit -m "remove config.php"
git push --force
```

5.Please write a file to introduce your program.

## 中文版

1.使用英语来书写提交记录，使用英文路径。 2.提交与issue相关 3.命名规则 4.提交内容中不能包含敏感信息。如果上传这些信息，可执行以下命令：

```
#例如，敏感文件是config.php
rm -rf config.php
git reset --hard HEAD^ //如果你想回退到更老的版本 ， 将HEAD^替换成更老的版本号（HEAD^ 代表上一个版本号 ， HEAD^^ means 代表上上一个版本）。
git add .
git commit -m "remove config.php"
git push --force
```

5.需要写一个项目介绍文档，如README.md
